

722.9 Speed Sensor Replacement

PART No. **M215.TOOL02** Speed Sensor Kit with Tool

This is an aftermarket replacement kit that includes the speed sensors and a tool to help remove them from the mechatronic.

1. The speed sensor kit will only work with the two mechatronic types below

www.automaticchoice.com

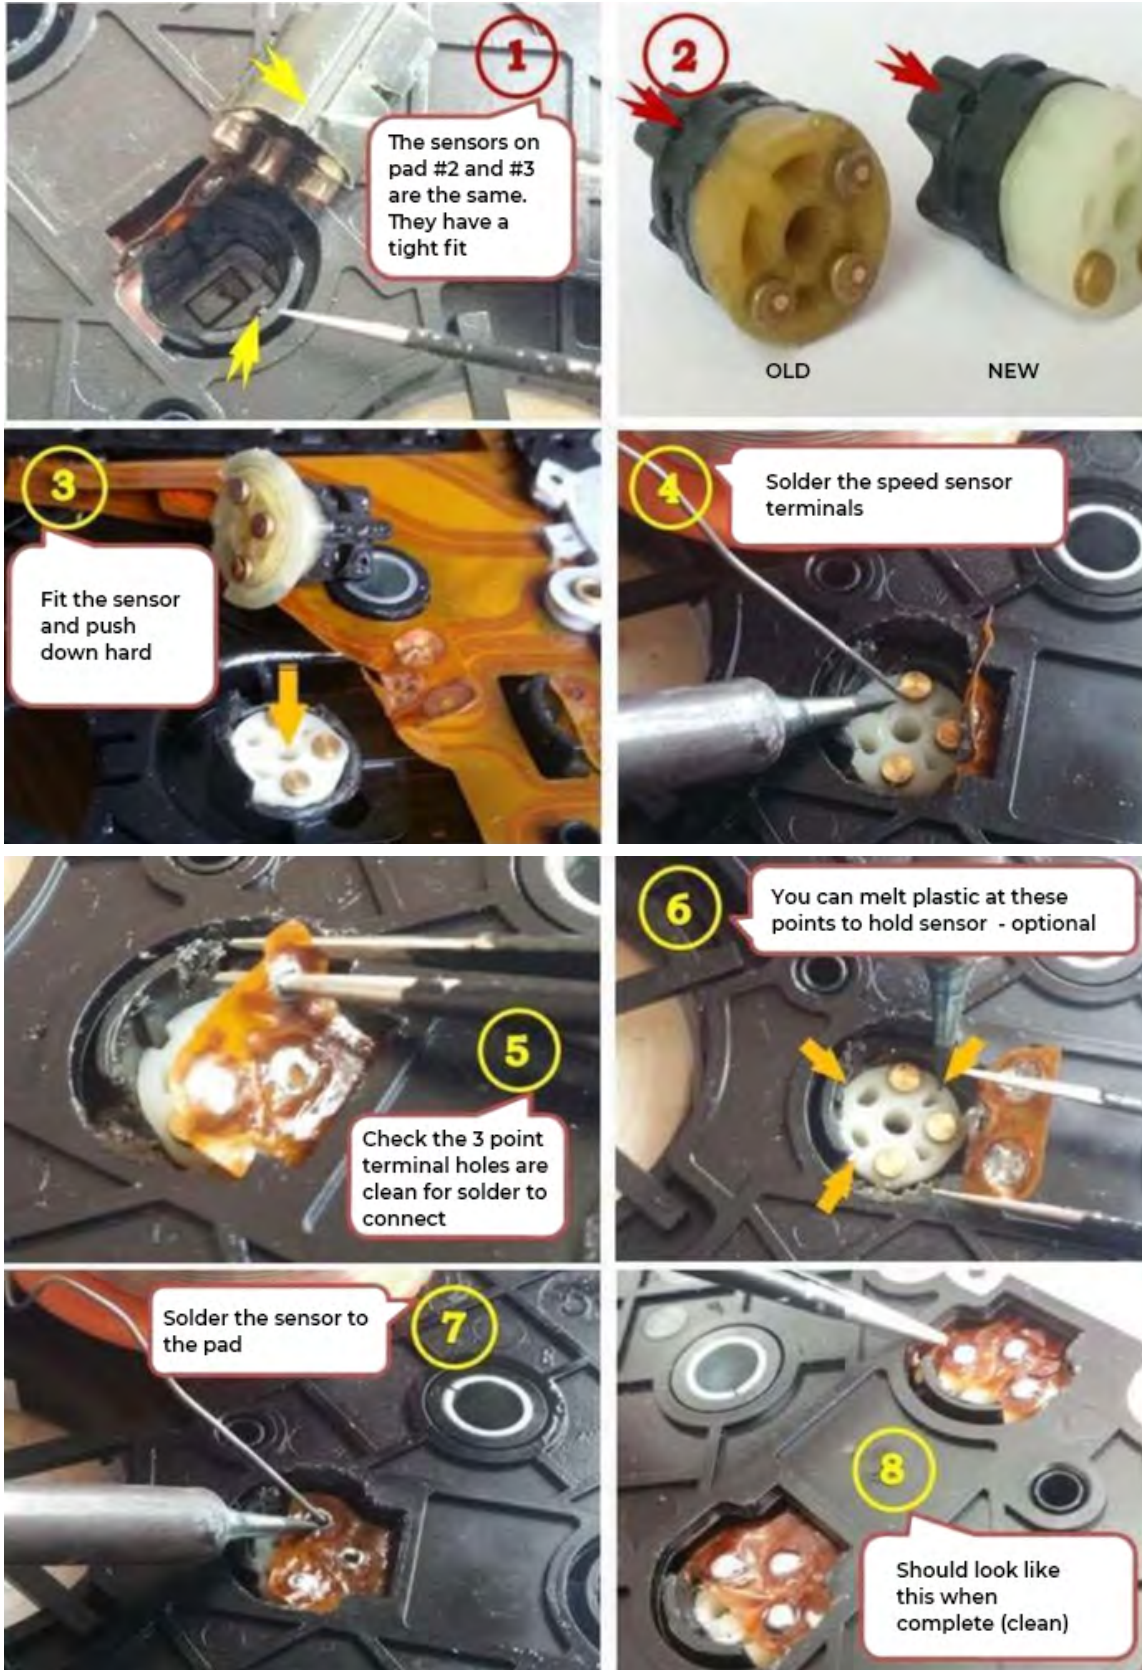

2. Remove the sensors

3. Install

Check carefully for cold solder faulty joints or short from solder.
Use a multimeter testing all 3 terminals with each other.
